

# **GRANULAR WETTING AGENT**

**Active Constituent: 15% Specialty Non-Ionic Surfactants** 

- Improves Water Penetration
- Helps Prevent Dry Patch in Turf & Lawns
- Improves Wettability of Growing Media

25 Kg Net

SITUATION	APPLICATION RATE	CRITICAL COMMENTS
NURSERY MEDIA		
Growing Media / Potting Mix	0.5 - 1 Kg / 1 m <sup>3</sup>	Use lower rate for seed raising mixes
TURF MANAGEMENT		
Low Maintenance Program		
Golf Greens & Tees Bowling Greens Grass Tennis Courts	2.0 - 2.5 Kg / 100m <sup>2</sup>	Spread evenly upon surface Apply at 10 - 12 week intervals or as required. AQUAFIX Granules will release wetting agent under irrigation or rainfall.
Fairways	1.5 Kg /100m²	
Premium Maintenance Progra	am	
All surfaces	1.5 Kg / 100m²	Apply under a regular application program at monthly intervals.
Seeding & Overseeding	0.7 Kg / 100m <sup>2</sup>	Apply to surface after preparing soil for seeding.
Turfing	1.0 Kg / 100m²	Apply to surface after laying turf.
DOMESTIC SITUATIONS		
Lawns / Garden beds	40g / m²	Spread evenly upon surface.
Established pots	1-10 tablespoon / 200-500mm <b>Ø</b> Pot	Sprinkle AQUAFIX Granules onto surface and water in well.
AGRICULTURE		
Broadacre Furrow seeding	4 Kg / Ha	Apply AQUAFIX Granules in furrow with seed at 30 cm spacings.
Horticulture General use.	40 Kg / Ha	Applying AQUAFIX Granules to water repellent soils around the base of the plant or tree. Incorporate into the soil or sprinkle onto suface. Water in well after application.

### NOT TO BE USED FOR ANY PURPOSE OTHER THAN INDICATED ON THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

### **GENERAL INSTRUCTIONS**

AQUAFIX GRANULES are a nonionic surfactant suitable for use in most situations where water repellency inhibits or prevents the growth of turfgrass, gardens and crops. AQUAFIX Granules are particularly beneficial in situations where dry application is required and where irrigation cannot be followed up immediately. AQUAFIX Granules are ideally suited to application in fairways, large playing fields, public parks and gardens. If left untreated poor water penetration leads to weak root growth, poor nutrient uptake and low crop yields or death of sensitive plants and turf. AQUAFIX Granules provide rapid penetration of water to highly water repellent soils.

## PROTECTION OF WILDLIFE, FISH, CRUSTACEA AND THE ENVIRONMENT Do not contaminate streams, rivers or waterways with the chemical or used container. STORAGE AND DISPOSAL

Store in closed, original container in a well ventilated area, as cool as possible. Destroy empty containers by crushing or puncturing them. Bury containers at an approved landfill or bury under at least 500mm of soil at an authorised disposal site.

### SAFETY DIRECTIONS

Avoid contact with skin or eyes. Wear rubber gloves, overalls and goggles or face shield.

### FIRST AID

If poisoning occurs induce vomiting and contact a doctor or Poisons Information Centre. If skin contact occurs remove contaminated clothing and wash skin thoroughly. If in eyes, hold eyes open and flood with water for at least 15 minutes and see a doctor.

### CONDITIONS OF SALE

The use of AQUAFIX GRANULES being beyond the control of the manufacturer, no warranty expressed or implied is given by Fernland Agencies Pty Ltd regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and Fernland Agencies Pty Ltd accepts no responsibility for any consequences whatsoever resulting from the use of this product.
